Education

SJC Institute of Technology	2026
<i>B.E. in Artificial Intelligence & Machine Learning</i>	CGPA: 8.59
LRG Naidu JR. College	2022
<i>PUC (Physics, Chemistry, Mathematics)</i>	85.3%
LRG Vidyalayam (EM)	2020
<i>SSLC</i>	78.5%

Technical Skills

Programming Languages: HTML, CSS (Intermediate), JavaScript, C, Java, Python (Basic), React js

Tools & Technologies: VS Code, IntelliJ IDEA, JShell, GitHub, Jupyter Notebook, Hibernate, PostgreSQL, AI-assisted development tools (Lovable, Antigravity CLI etc.) for building end-to-end projects

Projects

1. ToLetHub – Full-Stack Project

Full-Stack Project ToLetHub is a full-stack platform, connects accommodation seekers directly with PGs, rooms, and houses across India to bypass broker fees.

AI-powered rental platform with interactive maps, automated distance calculation, smart property listing, and Gemini chatbot integration.

Future Enhancements: Online payment gateway integration, real-time tenant-owner chat

Project links: <https://github.com/indra9346/TOLET> , <https://tolet-iota.vercel.app/>

2. Student Data Management System (Java + Hibernate + PostgreSQL)

A CRUD-based application demonstrating ORM concepts using Hibernate.

- Created, read, updated, and deleted student records
- Integrated Java application with PostgreSQL database
- Utilized Hibernate ORM to simplify database operations

Project link: <https://github.com/indra9346/hibernate-crud-demo>

3. DJ Video Editing Services – Client Website (React + Vite + Supabase)

Developed a responsive website for a real client based on their requirements for showcasing video editing services and Integrated Supabase for backend functionality and deployed the live project using Vercel.

Project link: <https://dj-video-editing-services.vercel.app/>

Certifications

- Google Cloud Skills Boost – Earned multiple badges demonstrating hands-on cloud experience
- Google Cloud Skills Boost Public Profile: https://www.skills.google/public_profiles/18bad5eb-bfc2-4f59-b0a9-2546e0d921bb
- Mastering DSA with Java (In Progress)

Achievements

- Advanced from Silver League to Gold League in Google Cloud Skills Boost
- Developing end-to-end automated workflow websites for clients, delivering dynamic and functional web solutions.
- Completed multiple trending courses on cloud technologies
